

LOCAL

We are pleased to announce the arrival of Col. G. H. Gordon—our delegate to the Baltimore Convention. The Col. brings good cheer for the prospects of democracy. He has traversed nearly all the northern states and Canada—Gen. Scott is down every where but in Canada—and he is running like wildfire there. The following explains why—

“Though, (says Gen. Scott,) opposed to incorporating any district densely populated with the Mexican race, I should be most happy to fraternize with our northern and Northern neighbors.”

WOODVILLE MERCHANTS.—Our merchants are the only ones in all the south who do not advertise their goods. We can satisfy them by figures that this is a losing policy to them, and does more than anything else to drive trade to New Orleans. If the country people do not know what our merchants keep on hand, instead of coming to town themselves—or losing the time of a negro by sending him—to learn if certain things are here, they send directly to New Orleans. We would state that the Republican circulates nearly 500 copies weekly, in this county alone, thus making it a vehicle to carry advertisements into every section of the County. To merchants who wish to advertise their fall goods, we are prepared to make the most liberal terms. Come and try us, gentlemen.

Extensive arrangements have been made for the accommodation of all who may visit the Donegal Barbecue to-day.

See the advertisement of the new and beautiful goods, by M. Simon, in another place.

S. FRANK & Co., have just opened a magnificent assortment of Fancy FALL and WINTER Goods. The attention of the Ladies is particularly directed to his card in this paper.

The attention of our Western readers is invited to the Card of Mr. KELSH.

We are requested to state that a Barbecue and Dance will be given in Donegal on the 14th inst. The public is invited to attend.

The Ladies are especially invited to attend—as the Barbecue is gotten up expressly for their amusement.

Fair and Soiree.

The Ladies of the Episcopal Church, will hold a Fair and give a Musical Soiree, in the Concert Hall, in Woodville, on the evening of the 28th or September next. The object of this Fair and soiree, is to raise a fund for the purchase of the Rectory adjoining the Church.

PIANO FORTES.

MANUFACTURED by Messrs. Hallett, Davis & Co., of every variety of style and finish, of 6, 6 1-2 and 7 octaves, with and without iron frames, and finished with the French or English actions. We also manufacture the New Circular Scale instrument, possessing many advantages, one of the most prominent of which is its extreme power. We likewise manufacture the Piccola or Boston Piano, the action of which is very powerful and elastic; being made after the principle of Eady's celebrated Boston Piano. The strings being made of Metal, instead of wood, places its durability beyond question, and in this respect, as well as in volume and purity of tone, it is superior to anything of the kind manufactured in this country. Messrs. H. D. & Co., have been awarded a number of medals and diplomas for their superior Pianos. These instruments are warranted to give satisfaction in every particular. Orders promptly filled by

D. L. Broom, M. D.

Dental Surgeon.

HAS permanently located

himself in Woodville, and

is prepared to perform all operations in DENTAL SURGERY, in a manner, at least, not inferior to any in the South Western States.

His success for the last twelve years, in this and the adjoining counties and parishes, in the Plugging, Extracting and Insertion of Teeth, from one to a full set, both upon pivot, by clasps, and atmospheric pressure, has been such as to preclude the necessity of giving references, as it is generally known that his operations have stood the test of time, and not found wanting.

Those requiring his services, will find it their advantage to visit him at his office, (connected with his residence) on Main st., nearly opposite Mr. Therrell's Hotel, as the light and conveniences of chair, and the arrangement of instruments are such as to enable him to perform operations more durably and with greater facility, than at the residences of the patients. Time and expense will thereby be saved.

The disease of the teeth and mouth, have more influence on the digestive and other visceral organs, than persons are generally aware of, and the timely application to a Scientific Dental Surgeon, may often not only save teeth supposed to be beyond cure, but relieve diseases that medicine would not reach, on account of the irritation caused by them.

Too much attention cannot be paid to the timely care of children shedding their milk teeth, (temporary set) as well as the regulation of the second or permanent ones, which are liable to grow crooked, or be so crowded as to insure early decay, and the suffering and inconvenience of most of the Dental operations now necessary to be performed.
